ABOUT ME

I am an accomplished Web Developer with a proven track record of success in the industry.

My technical proficiency is in front-end web development specializing in VueJS framework, with industry experience in back-end scripting language with Python.

Holding a Master's degree in Information & Communication Technology, with a focus on Web Design and Development from the prestigious University of Denver, I blend academic excellence, evidenced by a 4.0 GPA, with industry experience.

This hands-on expertise makes me a reliable engineering professional, committed to driving innovation and delivering outstanding results.

Apr 2019 - Sep 2019

- Create websites from Figma layouts supplied from design team for new and existing clients.
- Use the Django framework to create custom client solutions such as custom agent profile pages, branch profiles ect.
- Create custom reports, emailers, brochures, alerts or scripts with python.

Co-Founder, Lynx&Wolf, Durban, KwaZulu-Natal, South Africa

Jan 2017 - Feb 2021

- I launched Lynx and Wolf as a side project during studying for my Masters which initially offered purely web solutions such as web development / SEO/ online voting system.
- I then partnered up with a designer and together were able to offer more services such as creating brand identities.
- Our clients worked in the hospitality, medical, engineering and law fields with various needs.
- Lynx and Wolf created full brand identities and launched various online E-commerce solutions as well a social network for psychologist to use and exchange information or referrals.

Front End Developer, BrandGurus (Pty) Ltd, La Lucia

May 2015 - Jul 2016

- Create learning module slides.
- Maintain front-end visuals of site.
- Manage PHP Data.
- Creating Brand related web pages.
